

CONSISTENT QUALITY
EXTENSIVE SELECTION

6050-EZ *Recoil-less Lever Binder*

5/16"–3/8"

G43 & G70

5,400 Lb WLL

Forged Components

Designed to Inhibit Recoil

Tension Applied Away from Load

*Complies with
CVSA FMC 393.102B(B)*

Pacific Cargo Control's 6050-EZ recoil-less lever binder locks securely when binding, and allows for a safe one-handed release, even when under load. The hinged lever design reduces chances of recoil. As the handle does not store tension, the binder can be removed without the use of tools or prying.
